PROGRESS REPORT
CSE 2100 - PROJECT

PRESENTED BY :

Name   : Raiyan Zannat

Roll   : 1903073

Department : CSE

Section   : B

PRESENTED TO:

Tasmia Jannat,

Lecturer,

Department of CSE,

RUET

Date of Submission: 26.10.2022

Project Title : Multiple Games in One Web App

Date : 22.06.2022

Learned:

1. Basic of HTML, CSS and JavaScript;
2. Learned how to implement functionality using JS.

Project Progress:

Developed finishing two simple games using HTML, CSS and JavaScript.

1. The pig game.
2. Guess the number.

Problem:

No problem right now.

Next:

1. Combining into a single webpage.
2. Including login system using Node.js.

Date: 31.07.2022

Learned:

1. Backend of Node.js using express.js
2. How to send request to the server in a simple login form.

Project Progress:

Developed the idea of how to complete the project.

Problem:

Cannot post the request. Need to work on the functionality of back-end.

Next:

1. Including account creation and sign up system for the users in that combined webpage.
2. Storing the database of users using SQLite.

Date: 29.10.2022

Learned:
1. The functionality of back-end.
2. Creation and maintenance of Admin panel.
3. Storing the information of users using SQLite.

Project Progress:
The project is almost complete.

Problem:
No problem detected.

Future Plan:
I will style and design the combined webpage and will try to make it more aesthetic.
I will try to modify the basic rule of game and make it more interesting.
I will add more games.
